

§ 1410.2

7 CFR Ch. XIV (1-1-04 Edition)

(f) Notwithstanding other provisions of this section, the Erodibility Index (EI), suitability of land for permanent vegetative or water cover, factors for determining the likelihood of improved water quality, and adequacy of the planned practice to achieve desired objectives shall be determined by the Natural Resource Conservation Service (NRCS) or other sources approved by CCC, in accordance with the Field Office Technical Guide (FOTG) of NRCS or other guidelines deemed appropriate by NRCS. In no case shall such determination compel CCC to execute a contract that CCC does not believe will serve the purposes of the program established by this part. Any approved technical authority shall utilize CRP guidelines established by CCC.

(g) CCC may consult with the Forest Service (FS), a State forestry agency, or other organizations as determined by CCC to be necessary for developing and implementing conservation plans that include tree planting as the appropriate practice or as a component of a practice.

(h) CCC may consult with the Cooperative State Research, Education, and Extension Service to coordinate a related information and education program as deemed appropriate to implement the Conservation Reserve Program (CRP).

(i) CCC may consult with the National Marine Fisheries Service, U.S. Fish and Wildlife Service (FWS), or State wildlife agencies for such assistance as is determined necessary by CCC to implement the CRP.

(j) The regulations governing the CRP as of May 12, 2002, shall continue to govern contracts in effect as of that date (see 7 CFR part 1410 contained in the edition of 7 CFR Parts 1200 to 1599 revised as of January 1, 2003). This part shall apply to contracts executed on or after May 13, 2002

§ 1410.2 Definitions.

(a) The definitions in part 718 of this chapter shall be applicable to this part and all documents issued in accordance with this part, except as otherwise provided in this section.

(b) The following definitions shall be applicable to this part:

Agricultural commodity means any crop planted and produced:

- (1) By annual tilling of the soil;
- (2) On an annual basis by one-trip planters; or
- (3) Sugarcane planted or produced in a State.

Annual rental payment means, unless the context indicates otherwise, the annual payment specified in the CRP contract that, subject to the availability of funds, is made to a participant to compensate a participant for placing eligible land in the CRP.

Conservation district means a political subdivision of a State, Indian Tribe, or territory, organized pursuant to the State or territorial soil conservation district law, or Tribal law. The subdivision may be a conservation district, soil conservation district, soil and water conservation district, resource conservation district, natural resource district, land conservation committee, or similar legally constituted body.

Conservation plan means a record of the participant's decisions and supporting information for treatment of a unit of land or water, and includes a schedule of operations, activities, and estimated expenditures needed to solve identified natural resource problems by devoting eligible land to permanent vegetative cover, trees, water, or other comparable measures.

Conservation priority area means an area designated with actual and adverse water quality, wildlife habitat, air quality, or other natural resource impacts related to agricultural production activities or to assist agricultural producers to comply with Federal and State environmental laws or to meet other conservation needs, such as for air quality, as determined by the Deputy Administrator.

Conserving use means any alfalfa, other multi-year grasses and legumes planted during 1996 through 2001, and any summer fallow during 1996 through 2001.

Considered planted means: land devoted to a conserving use or land enrolled in the WBP during the crop year or during any of the 2 years preceding the crop year if the contract expired or will expire during calendar year 2000, 2001, or 2002; cropland enrolled in CRP; or land for which the producer received

insurance indemnity payment for prevented planting.

Contour grass strip means a vegetation area that follows the contour of the land that complies with the FOTG and a conservation plan developed under this part.

Contract period means the term of the contract which is not less than 10, nor more than 15 years.

Cost-share payment means the payment made by CCC to assist program participants in establishing the practices required in a contract.

Cropland means land defined as cropland in part 718 of this title, except for land in terraces that are no longer capable of being cropped.

Cropped wetlands means farmed wetlands and wetlands farmed under natural conditions.

Deputy Administrator means the Deputy Administrator for Farm Programs, FSA, the CRP Program Manager, or a designee.

Erodibility Index (EI) is, as prescribed by CCC, used to determine the inherent erodibility (water or wind) of a soil.

Farmed wetlands means land defined as farmed wetlands in part 12 of this title.

Federally-owned land means land owned by the Federal Government or any department, instrumentality, bureau, or agency thereof, or any corporation whose stock is wholly owned by the Federal Government.

Field means a part of a farm that is separated from the balance of the farm by permanent boundaries such as fences, roads, permanent waterways, woodlands, other similar features, or crop-lines, as determined by CCC.

Field Office Technical Guide (FOTG) means the official USDA guidelines, criteria, and standards for planning and applying conservation treatments and conservation management systems. It contains detailed information on the conservation of soil, water, air, plant, animal resources, and cultural resources applicable to the local area for which it is prepared.

Field windbreak, shelterbelt, and/or living snowfence mean a vegetative barrier with a linear configuration composed of trees, shrubs, or other vegetation, as determined by CCC, that are designated as such in a conservation plan

and that are planted for the purpose of reducing wind erosion, controlling snow, improving wildlife habitat, or conserving energy.

Filter strip means a strip or area of vegetation adjacent to a body of water the purpose of which is to remove nutrients, sediment, organic matter, pesticides, and other pollutants from surface runoff and subsurface flow by deposition, absorption, plant uptake, and other processes, thereby reducing pollution and protecting surface water and subsurface water quality and of a width determined appropriate for the purpose by the Deputy Administrator.

Highly Erodible Land (HEL) means land determined to have an EI equal to or greater than 8 on the acreage offered.

Infeasible to farm means an area that is too small or isolated to be economically farmed, as determined by the Deputy Administrator.

Landlord means a person who rents or leases acreage to another person.

Local FSA office means the FSA office serving the area in which the FSA records are located for the farm or ranch.

Offer means, unless the context indicates otherwise, if required by CCC, the per-acre rental payment requested by the owner or operator in such owner's or operator's request to participate in the CRP.

Offeror means an eligible person as determined by CCC who submits an offer of eligible acreage for enrollment into the CRP to enter into a CRP contract.

Operator means a person who is in general control of the farming operation on the farm, as determined by CCC.

Payment period means the 10- to 15-year contract period for which the participant receives an annual rental payment.

Perennial crop means an agricultural commodity that is produced from the same root structure for two or more years, as determined by CCC.

Permanent vegetative cover means perennial stands of approved combinations of certain grasses, legumes, forbs, shrubs and trees with a life span of 10 or more years.

Permanent wildlife habitat means a vegetative cover with the specific purpose of providing habitat, food, or cover for wildlife and protecting other environmental concerns for the life of the contract.

Practice means a conservation, wildlife habitat, or water quality measure with appropriate operations and management as agreed to in the conservation plan to accomplish the desired program objectives according to CRP and FOTG standards and specifications as a part of a conservation management system.

Riparian buffer means a strip or area of vegetation adjacent to a river or stream of sufficient width as determined by the Deputy Administrator to remove nutrients, sediment, organic matter, pesticides, and other pollutants from surface runoff and subsurface flow by deposition, absorption, plant uptake, and other processes, thereby reducing pollution and protecting surface water and subsurface water quality, which are also intended to provide shade to reduce water temperature for improved habitat for aquatic organisms and supply large woody debris for aquatic organisms and habitat for wildlife.

Soil loss tolerance (T) means the maximum average annual erosion rate specified in the FOTG that will not adversely impact the long-term productivity of the soil.

State means State agencies, departments, districts, county or city governments, municipalities or any other State or local government of the State.

State Technical Committee means a committee established pursuant to part 610 of this chapter to provide information, analysis, and recommendations to the U.S. Department of Agriculture.

State water quality priority areas means any area so designated by the State committee, in consultation with the State Technical Committee, where agricultural pollutants contribute to water degradation or create the potential for failure to meet applicable water quality standards or the goals and requirements of Federal or State water quality laws. These areas may include areas designated under section

319 of the Federal Water Pollution Control Act (33 U.S.C. 1329) as water quality protection areas, sole source aquifers or other designated areas that result from agricultural nonpoint sources of pollution. Acreage in these areas may be determined eligible as conservation priority areas.

Technical assistance means the assistance provided in connection with the CRP to owners or operators as approved by CCC, for developing conservation and/or tree planting plans, determining the eligibility of land and practices, implementing and certifying practices, and ensuring contract performance.

Violation means an act by the participant, either intentional or unintentional, that would cause the participant to no longer be eligible for all or a portion of cost-share, incentive, or annual contract payments.

Water Bank Program (WBP) means the program authorized by the Water Bank Act of 1970, as amended, in which eligible persons enter into 10-year agreements to preserve, restore, and improve wetlands.

Water cover means flooding of land by water either to develop or restore shallow water areas for wildlife or wetlands, or as a result of a natural disaster.

Wellhead protection area means the area designated by EPA or the appropriate State agency with an Environmental Protection Agency approved Wellhead Protection Program for water being drawn for public use, as defined for public use by the Safe Drinking Water Act, as amended.

Wetland means land defined as wetland in accordance with provisions of part 12 of this title.

Wetlands farmed under natural conditions means land defined as wetlands farmed under natural conditions in accordance with provisions of part 12 of this title.

Wetlands Reserve Program (WRP) means the program authorized by part 1467 of this chapter in which eligible persons enter into long-term agreements to restore and protect wetlands.
